January 24<sup>th</sup>, after 1pm

Hello,

On behalf of The Cannabis Alliance I want to express our support for the legislation put forth based on the task force recommendations. We will continue to sign-in in support as these bills move through committees. If a more robust vehicle such as testimony would further the effort, we are happy to add our voice in that way as well if it won't clutter committee agendas. I also wanted to express my gratitude to the task force for adding the additional work groups regarding the cannabis research commission and homegrow. I am happy to facilitate or serve myself as a resource. I am excited for the work that lies ahead!

Thank you all for all your work on this task force. I was at today's meeting and had a question. As a mixed-race woman, what is the SECTF doing for women? I believe that not just race but gender is a huge problem in the cannabis industry which is mostly male-driven. Thank you again and I look forward to watching this momentous step to the new prosperous cannabis industry in WA state.

To whom it may concern Garza Chris Thompson all board member and I am a previous marijuana medical Shop since 2010 2011 we've been discriminated by you guys we still we are not included in this social equity sending us a fake cops harassing Us closing us not being treated equal I have two different job 12 green and 12 green LLC why is 0% black people in this industry and we being first we are not being acknowledged you guys make us sick and O garette do not represent us as a black people look like us but she is not representing us she represent herself on his seat  
She's corrupt from Kirkland

To whom it may concern

Miss Morgan and her assistant she stopped me from speaking publicly and it was my turn to speak a public comment I am a previous job owner I am black and Muslim and the social equity groups is being signed to listen to us what happened to us and with Demi is being happen and the racism we going through so the from the LCB and you guys not helping us helping you guys self this is not equity or equality and it's a difference between equity and equality there is no equality here you guys want to

01/24/2022 (PM) -

throw us something we lost our money and business we are first exist you fix our status or there is no fix you guys Deming the society and damaging us 500 shop owned by white folks 0 black people in this industry I started the first one instead of Washington how you take for me you bring hate and you damaging the society and people die now over the shops Robin them all of that because they feel being left behind I don't support that but that's a consequences from the LCB what they did this one I will keep it for the record for any lawsuit coming up but I want to allergy we already fall a lawsuit against the LCB and it should be delivered to them by now here from you I left your voicemail and this is my phone number please give me a call if you guys have respect for black people and their opinion is important to you guys or we're too black to be seen

Thank you

To whom it may concern

After reviewing all of the necessary information to be apart of the social equity program I would like you to look up the meaning of social equality and it has nothing to do with giving favorable grants to mainly one race. This is not what the original documents portrayed at all and this is absolutely the reverse of equality and is the exact definition of racism. I'm ashamed of the people who put this package together. Also I believe my equal rights are being abused by the wslcb social equity program and I will call a lawyer to look into the program.
