

Licensing Workgroup Recommendations:

- **Social Equity Recommendation**: The legislature should establish a policy goal that 50% of total licenses should be owned by social equity licensees by 2029.
- **Retail License Recommendations**: The legislature should create additional retail licenses available across the state exclusive to social equity applicants until 2029.
- **Producer License Recommendations**: The legislature should create additional producer licenses available across the state exclusive to social equity applicants until 2029.
- **New License Type Recommendations**: The legislature should create a cannabis delivery license and cannabis social consumption licenses across the state exclusive to social equity applicants until 2029.

Community Reinvestment and Workforce Job Training Workgroup

- **Workforce Job Training Recommendation 1:** The legislature should make available funds for grants and scholarships to be issued to applicants from underserved communities to support education for careers in the cannabis industry, including: HR, manufacturing training, engineering/science, accounting, creative writing and marketing, culinary, agriculture, business/operations management, IT, trademarking, law and policy.
-
- **Workforce Job Training Recommendation 2:** Encourage cannabis certification programs within community colleges, universities, or other educational hubs.
