

Our Learnings So Far

There are foundational truths guiding the redesign:

- Racism is a public health crisis.
- The COVID-19 pandemic has worsened conditions for communities.
- Community holds inherent power, and we must be led by that power.
- There are many dimensions to health and wellbeing, and health looks different for each person and community.
- We are interconnected with each other and with the lands, water, and animals.

There is a unique opportunity for the Council to support partners and provide leadership by creating a unifying statewide vision for health and wellbeing.

What do you think?

- How should we think about health: as an opportunity, a right, or something else?
- Are we effectively changing the narrative around health in ways that align with our vision of equity and racial justice?
- How should the Council be structured to co-create with community?

Let's connect!

- Participate in redesign conversations at our [May 10 public meeting](#).
- Submit public comment to healthequity@sboh.wa.gov.
- [Contact Council staff](#) to discuss opportunities for partnership.
- [Subscribe to our distribution list](#) to receive meeting agendas and notices.
