

2024 Session Request Legislation Proposal

October 2024

Session Year: 2024

Date: October 25, 2023

Type of Proposal: Legislative Budget Both

Proposal Title:

Updating the name, membership, and authority of the Governor's Interagency Coordinating Council on Health Disparities

Concise statement explaining why the bill is needed (e.g. problem statement):

The Governor's Interagency Coordinating Council on Health Disparities (Council) was created in 2006 and our authorizing statute has not been substantively updated since. This bill is needed to increase state government's effectiveness in addressing health inequities and to align efforts with community visions and priorities, current structures, and multisectoral approaches to advancing health equity at the federal level.

Summary of the proposed solution (include desired results and any increased efficiencies):

Rename the Council to the "Governor's Council for Health Justice and Equity," expand our membership to include the LGBTQ Commission and additional community members, and clarify and expand the Council's purpose, authority, and responsibilities to focus on addressing health inequities and promoting health equity and wellbeing.

These statutory updates, along with increased fiscal investment, would allow the Council to provide policy coordination and leadership to help Washington respond to statewide health crises with strategies that are equal in scope and timeliness. Beyond survival and closing gaps, statutory updates would allow the Council to help move our governmental systems toward promoting optimal health and wellbeing for all Washingtonians.

Governor's Priorities? (select all that apply)

World class education
 A prosperous economy

Sustainable energy and clean environment
 Healthy and safe communities
 Efficient, effective, and accountable government

Related Agency Request: This is a new agency request unrelated to any prior requests.

Provide a statement that explains why the Council needs the bill.

The Council was created in 2006 and our authorizing statute has not been substantively updated since. Under current law, RCW 43.20.270 through RCW 43.20.280, the Governor's Interagency Council on Health Disparities (Council) works to develop policy recommendations and promote coordination among relevant state agencies, communities, and the public and private sectors to address health disparities among people of color and women, among other duties.

Needed Updates

Updating and clarifying our name, membership, structure, authority, and responsibilities would allow the Council to more effectively support state government in addressing health inequities and promoting holistic health and wellbeing, thereby benefiting all Washingtonians.

These statutory updates are needed to:

- Build alignment with community visions and priorities, current state government efforts, and multisectoral approaches to advancing health equity at the federal level.
- Provide coordinated direction and avoid redundancy by clarifying the Council's responsibilities in relation to key entities created after 2006, such as the LGBTQ Commission, Office of Equity, and Environmental Justice Council.

- Allow the Council to focus on health inequities (instead of only disparities) and social determinants of health which are the primary drivers of health and wellbeing, as well as expand our focus to include additional marginalized identities beyond racial/ethnic and gender identities.
- Support effective, enduring strategies and benefit more marginalized communities in addition to the groups currently specified in statute.
- Clarify our reporting requirements and the contents of those reports.

Focus on Health Equity and Wellbeing

With these statutory updates, the Council can provide policy coordination and leadership to help Washington respond to statewide health crises with strategies that are equal in scope and timeliness. Beyond survival and closing gaps, statutory updates can also allow the Council to help move our government toward systems that support optimal health and wellbeing for all Washingtonians.

Through research and the expertise of our community partners, we know that addressing unjust health disparities (i.e., health *inequities*) requires coordinated action to address root causes that are “diverse, complex, evolving, and interdependent in nature.”¹ Root causes include but are not limited to classism, racism, anti-Indigeneity, sexism, geographic isolation, ableism, homophobia, transphobia, and discrimination based on immigration or documentation status. Crises such as the COVID-19 pandemic and climate change are further impacting the health and wellbeing of every person in our state and country, and exacerbating long-standing inequities in our healthcare, economic, workforce, educational, and additional systems. These crises demonstrate that we are interconnected with each other and with the natural environment, and that a resilient, thriving State of Washington requires dedicated, sustained efforts to eliminate unjust health disparities and advance health justice and equity.

Health inequities cost us all and have a large, *avoidable* financial toll on our state and country. According to studies, “Health inequities exist for racial and ethnic minorities and persons with lower educational attainment due to differential exposure to economic, social, structural, and environmental health risks and limited access to health care.”² Nationally, health inequities lead to “delayed care, access barriers, missed diagnoses and limited access to preventive services and scientific advances” that result in roughly \$42 billion in lost productivity each year.³ According to the 2022 Black Well-Being Report, “Research shows that 30% of medical costs for Black, Hispanic, and Asian Americans are excess costs related to health inequities.”⁴ Additionally, the overall economic burden of health inequities on minoritized racial and ethnic populations has been estimated at \$421-\$451 billion and the economic burden on adults without a 4-year college degree has been estimated at \$940-\$978 billion. These costs come in the forms of “excess medical care expenditures, lost labor market productivity, and the value of excess premature death.”⁵

Crises such as the COVID-19 pandemic and climate change are further impacting the health and wellbeing of Washingtonians, and exacerbating long-standing inequities in our health care, economic, workforce, educational, and additional systems. U.S. life expectancy was already on the decline before the pandemic: from 78.9 to 78.6 years between 2014 to 2017. Research suggests inequities were worsening “[d]uring the last half of the 2010s, [as] life expectancy for college-educated persons continued to increase, while life expectancy for adults without a college education decreased.”⁶ The pandemic’s generational impacts include “profound effects on the Washington labor market”⁷ and the most significant decline in life expectancy in the U.S. in the past century: “overall U.S. life expectancy declined by 2.7 years between 2019 and 2021, American Indian and Alaskan Native (AIAN) people experienced a decline of 6.6 years, Hispanic people and Black people dropped 4.2 and 4 years, respectively, compared to a decline of 2.4 years for White people and 2.1 years for Asian people.”⁸ When data are disaggregated, we see that Native Hawaiian and Pacific Islander people in Washington continue to experience much higher rates of COVID-19 contraction, hospitalization, and

death compared to white people⁹ due to deeply entrenched health inequities caused by structural racism and other forms of oppression.

These crises show how our state can only be as healthy as our marginalized and most vulnerable populations, including but not limited to immigrants, refugees, people with disabilities, women, people who identify as LGBTQIA2S+, veterans, people with limited English proficiency, rural communities, people experiencing poverty or economic exploitation, Indigenous communities, and communities of color. A University of Washington assessment conducted during the pandemic shows that “[f]armers, ranchers and growers in eastern Washington, and [Black, Indigenous, and people of color (BIPOC) farmers] and military veteran farmers, tended to experience a greater financial impact compared to other food producers in the state” while “[f]armers were already facing other challenges, from worker shortages to wildfires and heat waves related to climate change.”¹⁰

Is this bill tied to the Governor’s priority or priorities? If yes, please indicate which Governor’s priority or priorities and how the request is tied to them.

Updating the Council’s authorizing statute and fully resourcing the Council would support a symbiotic relationship with **all five goal areas** of the Governor’s Results Washington priorities because:

- Individual and community health are at the foundation of all personal and societal activities; and
- The Council would be able to consider health and wellbeing more holistically and center the social determinants of health in its policy development, which include the social, economic, environmental, and other factors that impact a person’s and community’s health.

Goal 1: World-class Education

- Educational opportunities are denied when families face health inequities, such as residential segregation, unemployment, substandard housing and school facilities, limited access to healthy foods, limited resources and services, limited transportation, concentrated pollution, and inadequate access to quality medical care.¹¹
- Developing, graduating, and retaining a diverse workforce are essential to improving access to high-quality, culturally and linguistically appropriate care for underserved populations experiencing inequities.

Goal 2: Prosperous Economy

- Health inequities “are a drain on the economy,” having a huge and avoidable cost on our state and country.¹² Inequities cause billions of dollars in lost productivity and lead to approximately \$1.3 trillion in direct and indirect costs annually in the U.S.^{13,14,15}
- The COVID-19 pandemic’s severe negative impact on Washington’s labor force and economy underscores the intrinsic connection between health equity and collective economic resilience.

Goal 3: Sustainable Energy & Clean Environment

- Exposure to environmental hazards, access to green spaces, air quality, and resilience against extreme heat are social determinants of health. As a community partner shared with us, “Who can [afford to] live in a home that has cooling in summer and heating in winter—it’s not just an environmental issue, it’s an equity and health issue.”

Goal 4: Health & Safe Communities

- Council efforts would further focus on increasing access to quality and culturally and linguistically appropriate healthcare. As a community partner expressed, “Having access to healthcare would prevent so much illness.”
- Beyond healthcare, the Council’s efforts would be able to extend to additional social determinants of health. With these statutory updates and adequate resources, the Council can be more responsive to

incorporating health and safety priorities identified by Washington’s communities.

Goal 5: Efficient, Effective, & Accountable Government

- With these statutory updates, the Council can further de-silo state agency efforts to make greater collective impact on addressing health disparities/inequities; help improve accountability to communities; and more comprehensively track policy adoption and implementation.

Provide a summary of major provisions.

Under current law, RCW 43.20.270 through RCW 43.20.280, the Governor’s Interagency Council on Health Disparities works to develop policy recommendations and promote coordination among relevant state agencies, communities, and the public and private sectors to address health disparities among people of color and women, among other duties.

This bill renames the Governor’s Interagency Coordinating Council on Health Disparities to the “Governor’s Council for Health Justice and Equity,” expands its membership to include the LGBTQ Commission and additional community members, and clarifies and expands the Council’s purpose, authority, and responsibilities.

- Section 1 updates the definition of “Council” in Chapter 43.20 RCW to mean the “Governor’s Council for Health Justice and Equity.”
- Section 2 amends legislative findings and intent as well as the Council’s purpose.
- Section 3 amends Council membership and structure, incorporating the LGBTQ Commission and additional community members, among other changes.
- Section 4 clarifies and revises the Council’s authority and responsibilities, including its reporting responsibilities.
- Section 5 and 6 make non-substantive updates to related RCW where the Council is mentioned, to reflect the updated name of “Governor’s Council for Health Justice and Equity.”
- Section 7 repeals RCW 44.28.810 to remove the outdated requirement for the Joint Legislative Audit and Review Committee to conduct a review of the Council, which was completed in 2016.

Provide changes to the current law.

Updating the name, authority, membership, and duties of the governor's interagency coordinating council on health disparities; amending RCW 43.20.270, 43.20.275, 43.20.280, 41.05.840, and 70.41.470; reenacting and amending RCW 43.20.025; and repealing RCW 44.28.810.

Will the fiscal impact of this proposed legislation exceed \$50,000?

Yes

Does this proposal require commission or advisory committee endorsements?

Yes. Health Disparities Council members are the authors of requested statutory updates. Members have voted on and approved submittal of the Council’s 2024 request legislation and decision package.

Would this bill require a DOH Tribal Consultation and Collaboration procedure? If yes, briefly describe.

No. In the future, the Council may work with Tribes on health issues of mutual concern. However, updates to our authorizing statute (this request legislation) and immediate implementation do not necessitate Tribal Consultation.

Who is the target population or community that will benefit by the proposed legislation? How will the population/community benefit?

Updating and clarifying our authorizing statute would allow the Council to more effectively support state government in addressing health inequities, thereby benefiting all Washingtonians.

In current statute, the Council is required to create a state action plan and policy to eliminate health disparities by race/ethnicity and gender. The requested changes would allow the Council to have a greater impact on leading the state to eliminate health inequities and promote holistic health and wellbeing. The changes would allow the Council to work on health inequities (instead of disparities), focus on the social determinants of health which are the primary drivers of health and health equity, and expand our focus to additional marginalized identities beyond racial/ethnic and gender identities. This expansion would benefit more groups than our current statute allows.

Community partners have consistently encouraged the Council to address upstream structural inequities in our systems (e.g., racism, sexism, ableism, discrimination) that cause poor health outcomes downstream. The requested statutory updates would allow the Council to create policy recommendations to address inequities that disproportionately impact Indigenous communities, people of color, women, transgender people, non-binary people, people experiencing poverty, rural communities, people with limited English proficiency, veterans, refugees and immigrants, people with disabilities, youth, LGBTQIA2S+ communities, and additional marginalized Washingtonians who experience unfair, unjust, and avoidable health disparities.

In alignment with Executive Order 22-04 [Implementing the Washington State Pro-Equity Anti-Racism (PEAR) Plan & Playbook], this proposal furthers equity in governmental systems and laws, health and human services, and state and local practices.

Describe how your agency conducted community outreach and engagement by relationally partnering with communities and populations who have historically been excluded and marginalized by governmental decisions.

This past year, the Council conducted a redesign project to review and recommend updates to our authorizing statute, which was open for public participation. Early on, we asked participants about limitations to the Council's work. Some responses included: lack of funding for community engagement; limited staffing and time; lack of geographical and cross-state representation; and lack of visibility and understanding of the Council's work among decision makers.

In addition to hosting redesign workshops open to the public, we did focused community partner engagement in Summer 2023 to learn how the Council could better align with partners' visions and priorities and better engage with partners and the communities they serve (see attached report). We prioritized organizations working with communities who often experience systemic racism, social and economic exclusion, discrimination, exploitation, and other forms of oppression. These organizations support or organize Black and Brown, rural, LGBTQIA2S+, immigrant, refugee, and economically marginalized communities.

Please describe how your agency revised the proposed legislation based upon the feedback provided through your community outreach and engagement.

Overall, input from community partners was incorporated in our request legislation as well as our decision package. Partners emphasized the importance of the Council centering community voice and community-led processes; having staffing and other resources to create long-term, reciprocal relationships; implementing equitable processes and inclusive convenings; sharing relevant and timely information through culturally and linguistically appropriate channels; coordinating with other governmental groups working toward the various dimensions of equity and justice; and creating meaningful impact on governmental systems.

Is there a target population or community that is not included, would be marginalized and/or disproportionately impacted? If so, please explain why and how the exclusion will be addressed.

At this time, we do not expect anyone has been excluded or will be further marginalized by this proposal. The proposed updates recognize marginalized identities shift over time, so the language (e.g., "and other marginalized communities") are intended to accommodate these shifts. However, if inequities arise, the Council will work with Tribes, community partners, and state agencies to address them.

Describe impacts the proposed legislation could have on the communities and populations who have been included and excluded and/or marginalized.

N/A

Does this proposal have a fiscal impact on the Department of Health? Yes

How much of the cost is one-time versus ongoing?

\$35,000 (GF-S in FY25) is one-time and \$1,902,000 (GF-S beginning FY25) is ongoing.

Does this proposal have a negative/positive fiscal impact on other state agencies? Yes

If yes, list the agency or agencies below and attach their fiscal note

Two state agencies (Workforce Training and Education Coordinating Board; Commission on Asian Pacific American Affairs) have indicated fiscal impact due to participation on the Council, both of which are less than \$50,000 per year.

Fiscal Note Amounts

Bill Version: Z-0403.4

Agency	Fiscal Impact Indicated
Commission on African American Affairs	No fiscal impact
Commission on Asian Pacific American Affairs	\$24,000 (FY25-27 biennium)
Commission on Hispanic Affairs	No fiscal impact
Department of Agriculture	No fiscal impact
Department of Commerce	No fiscal impact
Department of Children, Youth, and Families	No fiscal impact
Department of Health & State Board of Health (The Health Disparities Council is within the SBOH)	\$3,804,000 (FY25-27 biennium)
Department of Social and Health Services	No fiscal impact
Department of Ecology	No fiscal impact
Health Care Authority	No fiscal impact
LGBTQ Commission	No fiscal impact
Workforce Training and Education Coordinating Board	\$44,000 (FY25-27 biennium)
Governor's Office of Indian Affairs	Pending
Office of Superintendent of Public Affairs	Pending

BILL REQUEST - CODE REVISER'S OFFICE

BILL REQ. #: Z-0403.4/24 4th draft

ATTY/TYPIST: MW:eab

BRIEF DESCRIPTION: Updating the governor's interagency coordinating council on health disparities.

1 AN ACT Relating to updating the name, authority, membership, and
2 duties of the governor's interagency coordinating council on health
3 disparities; amending RCW 43.20.270, 43.20.275, 43.20.280, 41.05.840,
4 and 70.41.470; reenacting and amending RCW 43.20.025; and repealing
5 RCW 44.28.810.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 **Sec. 1.** RCW 43.20.025 and 2019 c 185 s 1 are each reenacted and
8 amended to read as follows:

9 The definitions in this section apply throughout this chapter
10 unless the context clearly requires otherwise.

11 (1) "Commissary" means an approved food establishment where food
12 is stored, prepared, portioned, or packaged for service elsewhere.

13 (2) "Commissions" means the Washington state commission on
14 African American affairs established in chapter 43.113 RCW, the
15 Washington state commission on Asian Pacific American affairs
16 established in chapter 43.117 RCW, the Washington state commission on
17 Hispanic affairs established in chapter 43.115 RCW, and the
18 governor's office of Indian affairs.

19 (3) "Consumer representative" means any person who is not an
20 elected official, who has no fiduciary obligation to a health

1 facility or other health agency, and who has no material financial
2 interest in the rendering of health services.

3 (4) "Council" means the governor's (~~((interagency coordinating))~~)
4 council (~~((on))~~) for health (~~((disparities))~~) justice and equity,
5 convened according to this chapter.

6 (5) "Department" means the department of health.

7 (6) "Health disparities" means the difference in incidence,
8 prevalence, mortality, or burden of disease and other adverse health
9 conditions, including lack of access to proven health care services
10 that exists between specific population groups in Washington state.

11 (7) "Health impact review" means a review of a legislative or
12 budgetary proposal completed according to the terms of this chapter
13 that determines the extent to which the proposal improves or
14 exacerbates health disparities.

15 (8) "Local health board" means a health board created pursuant to
16 chapter 70.05, 70.08, or 70.46 RCW.

17 (9) "Local health officer" means the legally qualified physician
18 appointed as a health officer pursuant to chapter 70.05, 70.08, or
19 70.46 RCW.

20 (10) "Mobile food unit" means a readily movable food
21 establishment.

22 (11) "Regulatory authority" means the local, state, or federal
23 enforcement body or authorized representative having jurisdiction
24 over the food establishment. The local board of health, acting
25 through the local health officer, is the regulatory authority for the
26 activity of a food establishment, except as otherwise provided by
27 law.

28 (12) "Secretary" means the secretary of health, or the
29 secretary's designee.

30 (13) "Servicing area" means an operating base location to which a
31 mobile food unit or transportation vehicle returns regularly for such
32 things as vehicle and equipment cleaning, discharging liquid or solid
33 wastes, refilling water tanks and ice bins, and boarding food.

34 (14) "Social determinants of health" means those elements of
35 social structure most closely shown to affect health and illness,
36 including at a minimum, early learning, education, socioeconomic
37 standing, safe housing, gender, incidence of violence, convenient and
38 affordable access to safe opportunities for physical activity,
39 healthy diet, and appropriate health care services.

1 (15) "State board" means the state board of health created under
2 this chapter.

3 **Sec. 2.** RCW 43.20.270 and 2006 c 239 s 1 are each amended to
4 read as follows:

5 The legislature finds that ~~((women and people of color experience~~
6 ~~significant disparities from men and the general population in~~
7 ~~education, employment, healthful living conditions, access to health~~
8 ~~care, and other social determinants of health. The legislature finds~~
9 ~~that these circumstances coupled with lower, slower, and less~~
10 ~~culturally appropriate and gender appropriate access to needed~~
11 ~~medical care result in higher rates of morbidity and mortality for~~
12 ~~women and persons of color than observed in the general population.~~
13 ~~Health disparities are defined by the national institute[s] of health~~
14 ~~as the differences in incidence, prevalence, mortality, and burden of~~
15 ~~disease and other adverse health conditions that exist among specific~~
16 ~~population groups in the United States.~~

17 ~~It is the intent of the Washington state legislature to create~~
18 ~~the healthiest state in the nation by striving to eliminate health~~
19 ~~disparities in people of color and between men and women. In meeting~~
20 ~~the intent of chapter 239, Laws of 2006, the legislature creates the~~
21 ~~governor's interagency coordinating council on health disparities.~~
22 ~~This council shall create an action plan and statewide policy to~~
23 ~~include health impact reviews that measure and address other social~~
24 ~~determinants of health that lead to disparities as well as the~~
25 ~~contributing factors of health that can have broad impacts on~~
26 ~~improving status, health literacy, physical activity, and nutrition))~~
27 every Washingtonian has the right to achieve optimal health and well-
28 being. Health and well-being are interconnected between all people,
29 which is inextricably linked to the health of all beings and the
30 natural environment. Health and well-being may look different for
31 each person and each community. Health and well-being can include
32 mental, physical, occupational, social, emotional, spiritual,
33 intellectual, environmental, and financial wellness. Supporting and
34 sustaining health and well-being requires holistic approaches that
35 uplift the whole person, whole family, and whole community across
36 their lifespans.

37 The legislature finds that throughout history, state and national
38 policies have systematically excluded people of color and other
39 marginalized populations from the power, opportunities, access, and

1 resources we all need for optimal health and well-being. Communities
2 who are black, indigenous, people of color, women, transgender,
3 nonbinary, experiencing poverty, living in rural areas, speakers of a
4 language other than English, veterans, refugees and immigrants,
5 living with disabilities, youth, LGBTQ+, and who have other
6 marginalized identities experience poor health outcomes that are
7 unfair, unjust, and avoidable. Eliminating unjust health disparities
8 requires addressing inequities in our systems, structures, and
9 culture.

10 The legislature finds that structural racism, in its many current
11 forms across all sectors, has roots in historic harms to black and
12 indigenous peoples through slavery and genocide. Our state and
13 country have a painful history of harmful policies impacting tribes,
14 communities of color, and immigrants including, but not limited to,
15 colonization of tribal lands and the Hawaiian and Pacific islands,
16 nuclear testing and decimation in the compact of free association
17 islands, Chinese exclusion, Japanese American incarceration,
18 redlining, segregation, and laws banning interracial marriage.
19 Centuries of colonial and imperial practices aimed at destruction of
20 communities and cultures have resulted in historical and
21 intergenerational trauma that continue to negatively impact the
22 health and well-being of people who live in Washington.

23 The legislature finds that racism is a public health crisis that
24 causes dire impacts on the health of individuals, communities, and
25 all of Washington. The American public health association recognizes
26 racism as a driving force that influences the social determinants of
27 health and is a barrier to health equity. Studies show that racism,
28 income, and neighborhood location have a bigger impact on health than
29 medical care or genetic code. Disparate impacts of the COVID-19
30 pandemic and response are directly linked to racism's harmful effects
31 on the health and well-being of individuals. The pandemic has
32 worsened conditions across the state and has widened inequities,
33 emphasizing how government is not currently structured in a way to
34 respond to crises without leaving broad groups of people behind.
35 Negative social, economic, and health impacts from the COVID-19
36 pandemic will continue to reverberate throughout the state and future
37 generations.

38 The legislature finds that state government efforts should focus
39 on actions and policies that promote health and well-being. This
40 requires coordinated and sustained efforts to undo all forms of

1 racism and bias, prevent further harm, build connection and
2 resilience across the state, and support communities in healing from
3 historical and intergenerational trauma, especially among communities
4 most affected by racism and inequities.

5 The legislature further finds that advancing health justice and
6 equity will benefit everyone and will make Washington state more
7 resilient and able to respond to current and future public health
8 threats, such as racism and climate change. Working toward health
9 justice and equity requires state government to be led by the
10 inherent power of community and fully serve people who experience
11 intersecting forms of oppression. Health equity only exists when we
12 all have the opportunity to reach our full potential.

13 Therefore, it is the intent of the Washington state legislature
14 to promote health and well-being for all in Washington by advancing
15 health equity and creating socially, economically, and
16 environmentally just conditions where all individuals and communities
17 are free from racism and other forms of oppression, so we can be the
18 healthiest versions of ourselves and reach our full potential.

19 In meeting the intent of this chapter, the governor's council for
20 health justice and equity is created, and shall partner with
21 communities, state agencies, the legislature, and the office of the
22 governor to create a statewide vision for health and well-being as
23 well as policy recommendations that promote health justice and
24 equity.

25 **Sec. 3.** RCW 43.20.275 and 2018 c 58 s 19 are each amended to
26 read as follows:

27 (1) In collaboration with staff whom the office of financial
28 management may assign, and within funds made expressly available to
29 the state board for these purposes, the state board shall (~~assist~~
30 ~~the governor by convening and providing~~) convene and provide
31 assistance to the council.

32 (2) The council shall consist of 22 core members which shall
33 include (~~one representative from each of~~) the following (~~groups:~~
34 ~~Each of the commissions,~~) representatives:

35 (a) One from the commission on African American affairs;

36 (b) One from the commission on Asian Pacific American affairs;

37 (c) One from the commission on Hispanic affairs;

38 (d) One from the governor's office of Indian affairs;

39 (e) One from the LGBTQ commission;

- 1 (f) One from the state board((τ));
- 2 (g) One from the department((τ));
- 3 (h) One from the department of social and health services((τ));
- 4 (i) One from the department of commerce((τ));
- 5 (j) One from the health care authority((τ));
- 6 (k) One from the department of agriculture((τ));
- 7 (l) One from the department of ecology((τ));
- 8 (m) One from the office of the superintendent of public
9 instruction((τ));
- 10 (n) One from the department of children, youth, and
11 families((τ));
- 12 (o) One from the workforce training and education coordinating
13 board((τ)) and ~~((two))~~
- 14 (p) Seven members of the public ~~((who will represent the~~
15 ~~interests of health care consumers. The council is a class one group~~
16 ~~under RCW 43.03.220. The two public members shall be paid per diem~~
17 ~~and travel expenses in accordance with RCW 43.03.050 and 43.03.060.~~
18 ~~The council shall reflect diversity in race, ethnicity, and gender.~~
19 ~~The governor or the governor's designee shall chair the council.~~
- 20 ~~(2) The council shall promote and facilitate communication,~~
21 ~~coordination, and collaboration among relevant state agencies and~~
22 ~~communities of color, and the private sector and public sector, to~~
23 ~~address health disparities. The council shall conduct public~~
24 ~~hearings, inquiries, studies, or other forms of information gathering~~
25 ~~to understand how the actions of state government ameliorate or~~
26 ~~contribute to health disparities. All state agencies must cooperate~~
27 ~~with the council's efforts.~~
- 28 ~~(3) The council with assistance from the state board, shall~~
29 ~~assess through public hearings, review of existing data, and other~~
30 ~~means, and recommend initiatives for improving the availability of~~
31 ~~culturally appropriate health literature and interpretive services~~
32 ~~within public and private health-related agencies.~~
- 33 ~~(4) In order to assist with its work, the council shall establish~~
34 ~~advisory committees to assist in plan development for specific issues~~
35 ~~and shall include members of other state agencies and local~~
36 ~~communities.~~
- 37 ~~(5) The advisory committee shall reflect diversity in race,~~
38 ~~ethnicity, and gender)), including at least two youth~~
39 ~~representatives, who have direct lived experience with health~~
40 ~~inequities and will bring the voices of communities who have been~~

1 systematically excluded from the power, opportunities, access, and
2 resources needed to attain health and well-being.

3 (3) Whenever the workload or policy priority of the council
4 requires, the council may assess its core membership and recommend
5 additional members to the governor. Based on the council's
6 recommendation, the governor may appoint pro tempore members to the
7 council. When serving, pro tempore members of the council have all
8 the powers and duties and are entitled to the same compensation and
9 reimbursement of core members of the council.

10 (4) The council shall establish its decision making and voting
11 procedures within council bylaws.

12 (5) Councilmembers must be persons who are committed to and well-
13 informed regarding principles of health justice and equity and who,
14 to the greatest extent practicable, reflect diversity in race,
15 ethnicity, age, disability status, sexual orientation, gender, gender
16 identity, military or military family status, urban and rural areas,
17 and regions of the state.

18 (a) To promote agency commitment and coordination, each state
19 agency on the council shall identify an executive team level staff
20 person or designee to participate on behalf of the agency.

21 (b) Nongovernmental members of the council shall be appointed by
22 the governor with guidance from the office of equity.

23 (c) The youth representatives must be 26 years of age or younger.
24 Once a youth representative becomes older than 26 years of age, a
25 youth successor shall be appointed and the previous youth
26 representative may finish the term as a public member if a public
27 member seat is open or as a pro tempore member as necessary.

28 (d) The governor shall appoint cochairs who have expertise or
29 experience with health justice and equity. At least one cochair must
30 be selected from among council members representing the commissions
31 identified in subsection (2)(a) through (e) of this section and
32 members of the public identified in subsection (2)(p) of this
33 section. The governor shall consider cochair nominations or
34 recommendations from the council.

35 (6) When representing the council, councilmembers may communicate
36 policy recommendations and positions on behalf of the council instead
37 of their respective agency or organization.

38 (7) The council is a class one group under RCW 43.03.220.
39 Nongovernmental members of the council shall be compensated and

1 reimbursed in accordance with RCW 43.03.050, 43.03.060, and
2 43.03.220.

3 **Sec. 4.** RCW 43.20.280 and 2006 c 239 s 4 are each amended to
4 read as follows:

5 (1) The council shall ((consider in its deliberations and by
6 2012, create an action plan for eliminating health disparities. The
7 action plan must address, but is not limited to, the following
8 diseases, conditions, and health indicators: Diabetes, asthma, infant
9 mortality, HIV/AIDS, heart disease, strokes, breast cancer, cervical
10 cancer, prostate cancer, chronic kidney disease, sudden infant death
11 syndrome (SIDS), mental health, women's health issues, smoking
12 cessation, oral disease, and immunization rates of children and
13 senior citizens. The council shall prioritize the diseases,
14 conditions, and health indicators according to prevalence and
15 severity of the health disparity. The council shall address these
16 priorities on an incremental basis by adding no more than five of the
17 diseases, conditions, and health indicators to each update or revised
18 version of the action plan. The action plan shall be updated
19 biannually. The council shall meet as often as necessary but not less
20 than two times per calendar year. The council shall report its
21 progress with the action plan to the governor and the legislature no
22 later than January 15, 2008. A second report shall be presented no
23 later than January 15, 2010, and a third report from the council
24 shall be presented to the governor and the legislature no later than
25 January 15, 2012. Thereafter, the governor and legislature shall
26 require progress updates from the council every four years in odd-
27 numbered years. The action plan shall recognize the need for
28 flexibility)) work with governmental and nongovernmental partners to
29 create a statewide vision and universal goals for health and well-
30 being as well as policy recommendations to move Washington toward
31 achieving its vision and goals.

32 (a) The vision, goals, and policy recommendations shall provide
33 an actionable framework to support communities, state agencies, the
34 governor, and the legislature in advancing health justice and equity
35 in Washington state.

36 (b) The vision, goals, and policy recommendations shall guide
37 state agencies as they continue to fulfill requirements pursuant to
38 chapters 70A.02 and 43.06D RCW.

1 (c) The council's policy recommendations shall work toward
2 resolving the negative structural and social determinants of health
3 and promoting the positive determinants.

4 (d) The vision, goals, and policy recommendations shall
5 incorporate the diversity of communities across the state.

6 (e) In the development of the vision, goals, and policy
7 recommendations, the council shall engage communities and may use
8 participatory methods that promote community-led planning and design,
9 so that communities who are disproportionately impacted by inequities
10 have meaningful opportunity and power to shape narratives,
11 priorities, and policy recommendations.

12 (2) The council shall promote and facilitate communication,
13 information sharing, coordination, and collaboration among relevant
14 state agencies, organizations that have been established for and by
15 the people most impacted by an issue such as racism and health
16 inequities, communities of color and other marginalized communities,
17 and the private and public sectors to support health justice and
18 equity, well-being, truth and reconciliation, and healing.

19 (3) The council, with assistance from state agencies and other
20 partners, shall conduct public hearings, research, inquiries,
21 studies, or other forms of information gathering to:

22 (a) Understand how the actions of state government ameliorate or
23 contribute to health inequities; and

24 (b) Recommend initiatives for improving the availability of
25 culturally and linguistically appropriate information and services
26 within public and private health-related agencies.

27 (4) The council shall collaborate with the environmental justice
28 council, the state poverty reduction work group, the state office of
29 equity, and other state agencies, boards, committees, and commissions
30 to propel state government toward actions that are coordinated and
31 rooted in antiracism, access, belonging, and justice so that these
32 efforts benefit all Washingtonians.

33 (5) The council shall submit an initial report to the governor
34 and relevant committees of the legislature by June 30, 2030, with the
35 statewide vision and universal goals for health and well-being
36 detailed in subsection (1) of this section. Beginning June 30, 2032,
37 and every two years thereafter, the council shall submit an update to
38 the governor and relevant committees of the legislature with policy
39 recommendations, the status of policy adoption and implementation
40 among relevant state agencies, the governor, and the legislature, as

1 well as any revisions to the statewide vision and universal goals for
2 health and well-being. The council shall make its reports publicly
3 available on its website to provide convenient access to all state
4 agencies.

5 (6) Within available resources, all state agencies shall
6 collaborate and be responsive to the council's requests, including
7 for disaggregated data.

8 (7) The council may:

9 (a) Use topics and findings from health impact reviews, as
10 authorized by RCW 43.20.285, to inform the council's priorities,
11 strategies, and recommendations;

12 (b) Develop policy positions;

13 (c) Form advisory committees or implement participatory models,
14 such as collaboratives or community assemblies, to support the
15 council in gathering information and developing policy priorities,
16 recommendations, and positions. These groups may include members of
17 the community and state agencies;

18 (d) Independently endorse or comment on policy recommendations
19 and positions of state and governmental entities, including but not
20 limited to agencies, boards, commissions, committees, and task
21 forces; and

22 (e) Independently endorse or comment on policy recommendations
23 and positions of community-based and nongovernmental entities.

24 **Sec. 5.** RCW 41.05.840 and 2021 c 309 s 2 are each amended to
25 read as follows:

26 (1) The universal health care commission is established to create
27 immediate and impactful changes in the health care access and
28 delivery system in Washington and to prepare the state for the
29 creation of a health care system that provides coverage and access
30 for all Washington residents through a unified financing system once
31 the necessary federal authority has become available. The authority
32 must begin any necessary federal application process within 60 days
33 of its availability.

34 (2) The commission includes the following voting members:

35 (a) One member from each of the two largest caucuses of the house
36 of representatives, appointed by the speaker of the house of
37 representatives;

38 (b) One member from each of the two largest caucuses of the
39 senate, appointed by the president of the senate;

1 (c) The secretary of the department of health, or the secretary's
2 designee;

3 (d) The director of the health care authority, or the director's
4 designee;

5 (e) The chief executive officer of the Washington health benefit
6 exchange, or the chief executive officer's designee;

7 (f) The insurance commissioner, or the commissioner's designee;

8 (g) The director of the office of equity, or the director's
9 designee; and

10 (h) Six members appointed by the governor, using an equity lens,
11 with knowledge and experience regarding health care coverage, access,
12 and financing, or other relevant expertise, including at least one
13 consumer representative and at least one invitation to an individual
14 representing tribal governments with knowledge of the Indian health
15 care delivery in the state.

16 (3) (a) The governor must appoint the chair of the commission from
17 any of the members identified in subsection (2) of this section for a
18 term of no more than three years. A majority of the voting members of
19 the commission shall constitute a quorum for any votes of the
20 commission.

21 (b) The commission's meetings shall be open to the public
22 pursuant to chapter 42.30 RCW. The authority must publish on its
23 website the dates and locations of commission meetings, agendas of
24 prior and upcoming commission meetings, and meeting materials for
25 prior and upcoming commission meetings.

26 (4) The health care authority shall staff the commission.

27 (5) Members of the commission shall serve without compensation
28 but must be reimbursed for their travel expenses while on official
29 business in accordance with RCW 43.03.050 and 43.03.060.

30 (6) The commission may establish advisory committees that include
31 members of the public with knowledge and experience in health care,
32 in order to support stakeholder engagement and an analytical process
33 by which key design options are developed. A member of an advisory
34 committee need not be a member of the commission.

35 (7) By November 1, 2022, the commission shall submit a baseline
36 report to the legislature and the governor, and post it on the
37 authority's website. The report must include:

38 (a) A complete synthesis of analyses done on Washington's
39 existing health care finance and delivery system, including cost,
40 quality, workforce, and provider consolidation trends and how they

1 impact the state's ability to provide all Washingtonians with timely
2 access to high quality, affordable health care;

3 (b) A strategy for developing implementable changes to the
4 state's health care financing and delivery system to increase access
5 to health care services and health coverage, reduce health care
6 costs, reduce health disparities, improve quality, and prepare for
7 the transition to a unified health care financing system by actively
8 examining data and reports from sources that are monitoring the
9 health care system. Such sources shall include data or reports from
10 the health care cost transparency board under RCW 70.390.070, the
11 public health advisory board, the governor's (~~interagency~~
12 ~~coordinating~~) council (~~on~~) for health (~~disparities~~) justice and
13 equity under RCW 43.20.275, the all-payer health care claims database
14 established under chapter 43.371 RCW, prescription drug price data,
15 performance measure data under chapter 70.320 RCW, and other health
16 care cost containment programs;

17 (c) An inventory of the key design elements of a universal health
18 care system including:

19 (i) A unified financing system including, but not limited to, a
20 single-payer financing system;

21 (ii) Eligibility and enrollment processes and requirements;

22 (iii) Covered benefits and services;

23 (iv) Provider participation;

24 (v) Effective and efficient provider payments, including
25 consideration of global budgets and health plan payments;

26 (vi) Cost containment and savings strategies that are designed to
27 assure that total health care expenditures do not exceed the health
28 care cost growth benchmark established under chapter 70.390 RCW;

29 (vii) Quality improvement strategies;

30 (viii) Participant cost sharing, if appropriate;

31 (ix) Quality monitoring and disparities reduction;

32 (x) Initiatives for improving culturally appropriate health
33 services within public and private health-related agencies;

34 (xi) Strategies to reduce health disparities including, but not
35 limited to, mitigating structural racism and other determinants of
36 health as set forth by the office of equity;

37 (xii) Information technology systems and financial management
38 systems;

39 (xiii) Data sharing and transparency; and

1 (xiv) Governance and administration structure, including
2 integration of federal funding sources;

3 (d) An assessment of the state's current level of preparedness to
4 meet the elements of (c) of this subsection and steps Washington
5 should take to prepare for a just transition to a unified health care
6 financing system, including a single-payer financing system.
7 Recommendations must include, but are not limited to, administrative
8 changes, reorganization of state programs, retraining programs for
9 displaced workers, federal waivers, and statutory and constitutional
10 changes;

11 (e) Recommendations for implementing reimbursement rates for
12 health care providers serving medical assistance clients who are
13 enrolled in programs under chapter 74.09 RCW at a rate that is no
14 less than 80 percent of the rate paid by medicare for similar
15 services;

16 (f) Recommendations for coverage expansions to be implemented
17 prior to and consistent with a universal health care system,
18 including potential funding sources; and

19 (g) Recommendations for the creation of a finance committee to
20 develop a financially feasible model to implement universal health
21 care coverage using state and federal funds.

22 (8) Following the submission of the baseline report on November
23 1, 2022, the commission must structure its work to continue to
24 further identify opportunities to implement reforms consistent with
25 subsection (7)(b) of this section and to implement structural changes
26 to prepare the state for a transition to a unified health care
27 financing system. The commission must submit annual reports to the
28 governor and the legislature each November 1st, beginning in 2023.
29 The reports must detail the work of the commission, the opportunities
30 identified to advance the goals under subsection (7) of this section,
31 which, if any, of the opportunities a state agency is implementing,
32 which, if any, opportunities should be pursued with legislative
33 policy or fiscal authority, and which opportunities have been
34 identified as beneficial, but lack federal authority to implement.

35 (9) Subject to sufficient existing agency authority, state
36 agencies may implement specific elements of any report issued under
37 this section. This section shall not be construed to authorize the
38 commission to implement a universal health care system through a
39 unified financing system until there is further action by the
40 legislature and the governor.

1 (10) The commission must hold its first meeting within 90 days of
2 July 25, 2021.

3 **Sec. 6.** RCW 70.41.470 and 2021 c 162 s 5 are each amended to
4 read as follows:

5 (1) As of January 1, 2013, each hospital that is recognized by
6 the internal revenue service as a 501(c)(3) nonprofit entity must
7 make its federally required community health needs assessment widely
8 available to the public and submit it to the department within
9 fifteen days of submission to the internal revenue service. Following
10 completion of the initial community health needs assessment, each
11 hospital in accordance with the internal revenue service shall
12 complete and make widely available to the public and submit to the
13 department an assessment once every three years. The department must
14 post the information submitted to it pursuant to this subsection on
15 its website.

16 (2)(a) Unless contained in the community health needs assessment
17 under subsection (1) of this section, a hospital subject to the
18 requirements under subsection (1) of this section shall make public
19 and submit to the department a description of the community served by
20 the hospital, including both a geographic description and a
21 description of the general population served by the hospital; and
22 demographic information such as leading causes of death, levels of
23 chronic illness, and descriptions of the medically underserved,
24 low-income, and minority, or chronically ill populations in the
25 community.

26 (b)(i) Beginning July 1, 2022, a hospital, other than a hospital
27 designated by medicare as a critical access hospital or sole
28 community hospital, that is subject to the requirements under
29 subsection (1) of this section must annually submit to the department
30 an addendum which details information about activities identified as
31 community health improvement services with a cost of \$5,000 or more.
32 The addendum must include the type of activity, the method in which
33 the activity was delivered, how the activity relates to an identified
34 community need in the community health needs assessment, the target
35 population for the activity, strategies to reach the target
36 population, identified outcome metrics, the cost to the hospital to
37 provide the activity, the methodology used to calculate the
38 hospital's costs, and the number of people served by the activity. If
39 a community health improvement service is administered by an entity

1 other than the hospital, the other entity must be identified in the
2 addendum.

3 (ii) Beginning July 1, 2022, a hospital designated by medicare as
4 a critical access hospital or sole community hospital that is subject
5 to the requirements under subsection (1) of this section must
6 annually submit to the department an addendum which details
7 information about the 10 highest cost activities identified as
8 community health improvement services. The addendum must include the
9 type of activity, the method in which the activity was delivered, how
10 the activity relates to an identified community need in the community
11 health needs assessment, the target population for the activity,
12 strategies to reach the target population, identified outcome
13 metrics, the cost to the hospital to provide the activity, the
14 methodology used to calculate the hospital's costs, and the number of
15 people served by the activity. If a community health improvement
16 service is administered by an entity other than the hospital, the
17 other entity must be identified in the addendum.

18 (iii) The department shall require the reporting of demographic
19 information about participant race, ethnicity, any disability, gender
20 identity, preferred language, and zip code of primary residency. The
21 department, in consultation with interested entities, may revise the
22 required demographic information according to an established six-year
23 review cycle about participant race, ethnicity, disabilities, gender
24 identity, preferred language, and zip code of primary residence that
25 must be reported under (b)(i) and (ii) of this subsection (2). At a
26 minimum, the department's consultation process shall include
27 community organizations that provide community health improvement
28 services, communities impacted by health inequities, health care
29 workers, hospitals, and the governor's (~~(interagency coordinating)~~)
30 council (~~(en)~~) for health ((disparities)) justice and equity. The
31 department shall establish a six-year cycle for the review of the
32 information requested under this subsection (2)(b)(iii).

33 (iv) The department shall provide guidance on participant data
34 collection and the reporting requirements under this subsection
35 (2)(b). The guidance shall include a standard form for the reporting
36 of information under this subsection (2)(b). The standard form must
37 allow for the reporting of community health improvement services that
38 are repeated within a reporting period to be combined within the
39 addendum as a single project with the number of instances of the
40 services listed. The department must develop the guidelines in

1 consultation with interested entities, including an association
2 representing hospitals in Washington, labor unions representing
3 workers who work in hospital settings, and community health board
4 associations. The department must post the information submitted to
5 it pursuant to this subsection (2)(b) on its website.

6 (3)(a) Each hospital subject to the requirements of subsection
7 (1) of this section shall make widely available to the public a
8 community benefit implementation strategy within one year of
9 completing its community health needs assessment. In developing the
10 implementation strategy, hospitals shall consult with community-based
11 organizations and stakeholders, and local public health
12 jurisdictions, as well as any additional consultations the hospital
13 decides to undertake. Unless contained in the implementation strategy
14 under this subsection (3)(a), the hospital must provide a brief
15 explanation for not accepting recommendations for community benefit
16 proposals identified in the assessment through the stakeholder
17 consultation process, such as excessive expense to implement or
18 infeasibility of implementation of the proposal.

19 (b) Implementation strategies must be evidence-based, when
20 available; or development and implementation of innovative programs
21 and practices should be supported by evaluation measures.

22 (4) When requesting demographic information under subsection
23 (2)(b) of this section, a hospital must inform participants that
24 providing the information is voluntary. If a hospital fails to report
25 demographic information under subsection (2)(b) of this section
26 because a participant refused to provide the information, the
27 department may not take any action against the hospital for failure
28 to comply with reporting requirements or other licensing standards on
29 that basis.

30 (5) For the purposes of this section, the term "widely available
31 to the public" has the same meaning as in the internal revenue
32 service guidelines.

33 NEW SECTION. **Sec. 7.** RCW 44.28.810 (Review of governor's
34 interagency coordinating council on health disparities—Report to the
35 legislature) and 2006 c 239 s 7 are each repealed.

--- END ---
